We are a company created with love for the human race and for the planet, a company based on kindness, respect and generosity to each other and to the earth. Each and every one of us serves a role that is intrinsic to the whole. Together, bringing out the best in one another, we strive to create products that will help make the world a better place.

**Vegamatrix Offers Something Different for Store Owners, Cultivators, Dispensaries, and Independent Growers:**

- Kyle Kushman, 30 year cultivation expert developed Vegamatrix and will personally answer questions about its use via email or phone
- 95% natural and organic with no animal by-products
- NON GMO plant based
- Extensive independent testing proves there are almost no residual salts or heavy metals left behind
- Accurate feeding charts for mamas/seedlings, indicas, sativas, hybrids outdoor, fruits and vegetables
- Android and iPhone apps with free downloads that access our nutrient calculator, grow forum, and feeding charts
